

Accessibility

Ensuring seamless
business travel for all

Who We Are

The **GBTA Foundation** was created to drive positive change for **People** and the **Planet** by funding initiatives that promote sustainability, knowledge sharing, inclusion, and equity in business travel.

Why Accessibility Matters

The GBTA Foundation's Accessibility initiative aims to guide and engage travel managers and suppliers in the implementing policies and best practices for accessible business travel.

Duty of Care

Companies must provide equitable work conditions and opportunities for all. Travel Managers have a responsibility to support their travelers and manage risks

ROI of Travel

Lack of accessibility creates an environment where travelers spend more time and energy to deliver a return on their company investment

Future of Workforce

Employees with accessibility requirements are a needed and valuable portion of travel workforce

Ways to Get Involved

The Foundation is a tax-exempt 501(c)3 organization, and donations are fully tax-deductible to the extent allowed by law
